# 1. Getting Started

# 1. Getting Started

## 1.1 Introduction

This is the Getting Started Guide to the ETAS License and Download Portal. This document is an introduction to terminology and concepts, and a basic primer on tasks you can perform with the Portal. It is meant for use by software customers to allow them to track and manage their License assets and Downloads.

Technical Support is available to customers with current maintenance contracts. Please include the following information with your inquiry:

- Product Name and Version
- Activation ID
- Operating System Name and Version

Contact the support center for your area:

<http://www.etas.com/en/hotlines.php>

A screenshot of the ETAS License & Download Portal login page. The page features the ETAS logo at the top left with the tagline "DRIVING EMBEDDED EXCELLENCE". The main heading is "ETAS License & Download Portal". Below this is a "Login" section with three radio button options: "With Username (Your Email)" (selected), "With Entitlement ID", and "With Activation ID". There are input fields for "Username" and "Password". A "Language" dropdown menu is set to "English (United States)". At the bottom right, there is a "Forgot password?" link and a blue "Log in" button.

# 1. Getting Started

## 1.1 Introduction

You can use the ETAS License and Download Portal to create and manage licenses and download software packages:

- Generation and tracking of software licenses
- Transparency of license terms, such as maintenance expiry dates
- Flexible login capacity
- Download of purchased software packages, Service Packs, Upgrades and Hotfixes
- Support for several license-related transactions, both before and after license generation, such as...
  - Activation
  - Return
  - Rehost
  - Consolidation
  - Viewing and printing Entitlements

The screenshot shows the ETAS License & Delivery Portal interface. At the top, the ETAS logo is displayed with the tagline "DRIVING UNBROKEN EXCELLENCE". Below the logo, a navigation bar contains links for "Home", "Activation & Entitlements", "License Support", and "Downloads". The main heading reads "Welcome to the ETAS License & Delivery Portal".

The interface is divided into three main sections:

- Current License Entitlements:** A table with columns for "Activation ID", "Product", and "Last modified". It lists several licenses, including "ES\_ASCETDEVELOPER\_LIC-UP" (Apr 22, 2020), "ISW\_INCA\_LIC-MP" (Apr 20, 2020), "ISW\_INCA\_LIC-CP" (Apr 20, 2020), "ES\_ASCET-DEVELOPER\_LIC-UP" (Mar 19, 2020), and "ES\_ASCET-DEVELOPER\_LIC-UP" (Mar 16, 2020). A "See all" link is present.
- Available Downloads:** A section with a "See all" link and a list of download categories: "INCA", "INTECRIO", "ISOLAR", and "Public Downloads". A note below states: "To activate the software, you need a license file."
- Recently Released Files:** A table with columns for "Description" and "Date". It lists files such as "INCA\_7.2\_SP13\_Multilingual" (Mar 31, 2020), "ERRORCELL" (Mar 31, 2020), "INCA\_V7.2\_SP16\_english" (Jan 24, 2020), "INCA\_V7.2\_Whats-new\_english" (Jan 24, 2020), "INCA\_V7.2\_ServicePack\_Release\_Notes\_english" (Jan 24, 2020), and "INCA\_7.2\_Release\_Notes\_english" (Jan 24, 2020). A "See all" link is present.

A small link "Do you need help activating the software after installation?" is located below the Current License Entitlements table.

# 1. Getting Started

## 1.2 Access to the ETAS License and Download Portal

### a) Access to manage your ETAS Licenses

<https://license.etas.com/>

There are several options to enter the portal:

#### With Username and Password

You will be enabled to see and manage all Activations in all the Entitlements assigned to your account (e.g. for a tool coordinator responsible for several Entitlements)

#### With Entitlement ID

Will allow you to see and manage all Activations in the entered Entitlement (e.g. for a company with only one Entitlement)

Access to Non-Public Downloads ⓘ  
You need a registration to complete a download (e.g. Whitepaper, Known Issues Report)? Please click here.

# 1. Getting Started

## 1.2 Access to the ETAS License and Download Portal

### With Activation ID

Will allow you to see and manage the entered Activation (e.g. for a user who is given the information by a tool coordinator to allow him/her to activate one license)

You are of course, free to use whichever method suits you best at the moment!

To **enable** also the **Download functions** in the Portal, a personal User Account is needed. How to create please see on the following sites.

# 1. Getting Started

## 1.2 Access to the ETAS License and Download Portal

### b) Enable Downloads in the Portal

- If you already have a valid ETAS FNO Customer Portal User with Password, you can extend your User to access also the Downloads in the Portal (valid Activation ID or Entitlement ID is needed).
- If you do not have a valid user and you want to evaluate ETAS Software you can use the **Product Evaluation** link to register yourself and select a available Evaluation Product.
- If you only need access to the ETAS Non-Public Downloads you can use the **Access to Non-Public Downloads** to register yourself.
- If you are already registered for Evaluations or for Downloads you are automatically also enabled to access the Non-Public Downloads.

# 1. Getting Started

## 1.3 Registration

### 1.3.1 User Management

With this function it is possible to add another user to an account.

For this purpose, an already existing Entitlement or Activation ID from the account is required for authentication.

Please click **“here”** to start the process.

The screenshot shows the ETAS License & Download Portal. At the top left is the ETAS logo with the tagline "DRIVING EMBEDDED EXCELLENCE". The main heading is "ETAS License & Download Portal". Below this is a "Login" section with three radio button options: "With Username (Your Email)" (selected), "With Entitlement ID", and "With Activation ID". There are input fields for "Username" and "Password", and a "Language" dropdown menu currently set to "English (United States)". A "Forgot password?" link and a blue "Log in" button are located to the right of the password field. Below the login section are three expandable cards: "User Management" (highlighted with a red border), "Product Evaluation", and "Access to Non-Public Downloads". Each card contains a question and a "Please click here." link.

# 1. Getting Started

## 1.3 Registration

### 1.3.1 User Management

In order to perform the registration, the mandatory fields in the form **Contact Information** must be filled in. Optional fields are marked with (optional).

For the authentication of the account association an Entitlement or Activation ID from the existing account must be entered.

Please note: The user credentials will be sent to the e-mail address specified here. Only business e-mail addresses are allowed.

The screenshot shows the ETAS User Management registration page. At the top left is the ETAS logo with the tagline "DRIVING EMBEDDED EXCELLENCE". At the top right, there is a language selector set to "English". The main heading is "User Management". Below this is a "Contact Information" section with a sub-heading and a note: "To add a new user to your company's existing license entitlements, we need the following user information. We pay strict attention to the privacy of your data (see Privacy Policy)." There are two radio buttons for "Type of ID": "Activation ID" (selected) and "Entitlement ID". Below these are input fields for "Activation | Entitlement ID", "First name", "Last name", "E-mail, business" (with a help icon), "Phone (optional)", "Company", "Street & house number", "City", "Postal code", "State (optional)", and "Country" (a dropdown menu currently showing "United States"). A "Privacy policy and further information" section contains two checkboxes: "I would like to receive information about new downloads on offers (optional)" and "Privacy Policy read and agreed". A blue "Register Account" button is located at the bottom right of the form. The footer contains copyright information: "© ETAS 2018 Sitemap Terms of Use & Privacy Policy Help".

# 1. Getting Started

## 1.3 Registration

### 1.3.1 User Management

The registration is always completed with a message.

If the user account has been created, you will receive the corresponding message and an e-mail with the login information will be sent to the specified e-mail address.

If you do not receive an e-mail, please check

- The e-mail address provided
- Your spam folder

If these are not the causes, please contact our support.

If a user account already exists for the specified e-mail address and you may not be aware of this, you can use the password reset function to use this user account again.

**Your user account has been created**

What's the next step?

You will receive an e-mail with your access data for the ETAS License & Download Portal.

The provided password is valid for 48 hours. Please change the provided password to a personal password during your first login.

Login

You have not received an e-mail? Please check your spam filter for the e-mail address [etas.licensing@etas.com](mailto:etas.licensing@etas.com) or contact our Support.

**This user already exists.**

What's the next step?

You have forgotten your Password? If you need help, please contact our Support.

## 1.3 Registration

### 1.3.2 Product Evaluation

With this function it is possible to register for evaluate an ETAS Software Product.

For this purpose, the MAC-address of your computer is required.

Please click **“here”** to start this process.

A screenshot of the ETAS License & Download Portal. The page features the ETAS logo at the top left. The main heading is "ETAS License & Download Portal". Below this is a "Login" section with three radio button options: "With Username (Your Email)" (selected), "With Entitlement ID", and "With Activation ID". There are input fields for "Username" and "Password", and a "Language" dropdown menu set to "English (United States)". A "Forgot password?" link and a blue "Log in" button are also present. Below the login section are three expandable menu items: "User Management", "Product Evaluation" (highlighted with a red border), and "Access to Non-Public Downloads". Each menu item includes a brief description and a "Please click here." link.

# 1. Getting Started

## 1.3 Registration

### 1.3.2 Product Evaluation

The first step is to select the product you want to evaluate.

Select the product you would like to evaluate and click **“Next”**.

The selection list contains all ETAS products that are offered at this time as evaluation and via this delivery path. If the ETAS Product you would like to evaluate is not listed, please contact ETAS Sales.

A screenshot of the ETAS Product Evaluation web interface. The page features the ETAS logo and tagline 'DRIVING EMBEDDED EXCELLENCE' in the top left, and a language selector for 'English' in the top right. The main heading is 'Product Evaluation', followed by the sub-heading 'Product Choice'. Below this, there is a prompt: 'Please choose the ETAS product you want to evaluate.' A dropdown menu is shown with 'INCA-V7.2' selected. A blue 'Next' button is positioned to the right of the dropdown.

# 1. Getting Started

## 1.3 Registration

### 1.3.2 Product Evaluation

On the same page you have to enter the MAC address of the computer on which you want to evaluate.

How to determine the MAC address of the computer:

1. Open the command prompt window.
2. Enter the command "ipconfig /all".
3. Search for the parameter "Physical Address" for your Ethernet adapter and take note of the specified value (in this example: 00-05-9A-3C-7A-00)

### Unique assignment of the evaluation license

The evaluation license is tied to your hardware for security reasons. Therefore we need the MAC address of the computer on which you want to evaluate the ETAS software.

By entering the MAC address you will quickly receive a personalized evaluation license.

MAC address

The 'physical address' of your primary network adapter.

# 2. Managing Entitlements

## 2.2 Activate Licenses (Generate a License Key)

### 4. Configure hosts

- Machine named license: a MAC address has to be provided
- User named license: a server host or server triad as well as a username of the client ID have to be provided
- Concurrent license: a server host or server triad has to be provided

The screenshot shows the ETAS 'Configure Hosts' web interface. The top navigation bar includes 'Home | Activation & Entitlements | License Support | Downloads'. The main heading is 'Configure Hosts' with a sub-instruction: 'Please add or select at least one host and click Next to configure counts.' Below this, there are two sections: 'Configure Hosts' on the left, which contains a 'Server hosts:' dropdown menu currently showing '(no license hosts selected)', and 'Selected line items:' on the right, which displays a table with one row of license information.

Activation ID	Product	Expiration date
XXXXXXXXXXXXXXXXXXXX	ES_ASCET-DEVELOPER_LIC-UP	PERMANENT

The screenshot shows a 'Create License Host' dialog box. The title bar says 'Create License Host' and the instruction reads 'Please select a license host type and enter an appropriate value.' The main area contains a form with 'Server Hosts:' followed by a dropdown menu set to 'ETHERNET', an equals sign, and a text input field containing '123456789123'. The dialog has 'OK' and 'Cancel' buttons at the bottom.

# 2. Managing Entitlements

## 2.2 Activate Licenses (Generate a License Key)

5. For concurrent licenses, you are now asked to define how many of the licenses you wish to activate (for Machine named and User named licenses, there is only one license per activation)

**Configure Counts**  
Please enter values for the counts and click Next to review.

**Configure Counts**  
Sold to: Guangzhou Auto-education Co., Ltd  
Start date: 2020-05-07

**Selected Hosts**  
Server hosts: 123456789123

**Nodelocked hosts**  
Server hosts: (No license hosts selected)

Activation ID	Product	qty	Unallocated qty	Extra	Fulfill count

Fulfill counts:

Host	Nodelocked hosts	Activation ID	Product	Fulfill count
123456789123	USER-4up56e	123456789123	USER-4up56e	1

Buttons: Generate, Cancel, Back

# 2. Managing Entitlements

## 2.2 Activate Licenses (Generate a License Key)

If you activate several licenses in one step for the same machine/user you can also choose to consolidate the license into one file:  
(e.g. first the main product and afterwards an add-on for the same user)

1. Go to **“Activation & Entitlements”**
2. Select more than one Activation ID and activate Select **“Yes”** when asked whether you want to consolidate the generated licenses
3. Complete activation as described before

# 2. Managing Entitlements

## 2.3 License Lifecycle

Licenses have a lifecycle that extends beyond activation and fulfillment (license delivery). Different events at your end (e.g. purchase of new machines, crash of a hard disc...) can affect the lifecycle. The following kinds of license change management are supported by the ETAS License Portal:

- Retrieve an existing license key (e.g. if the old one is lost due to accidental deletion etc.). See [Retrieve License Key](#) for details.
- Specify a new license server Host ID, a new MAC address or a new Windows User Name for a license (e.g. when you replace a computer or assign a license to another user). See [Rehost](#) and [Return](#) for details.
- Consolidate existing licenses into one license file for easier management. See [Consolidation](#) for details.

# 2. Managing Entitlements

## 2.4 Upgrades

Activations derived from product upgrades:

- If your licenses are covered by a valid maintenance contract, you can receive product upgrades. Upgrading from one major version to another (e.g. from INCA V6.x.x to INCA V7.x.x) will require the generation of a fresh license key as the keys are bound to the product version.
- When the upgrade is performed, ETAS will create a new activation to provide a license for the new product version. And it will be automatically activated for the Host of the previous license.

- If old version licenses have not been activated and a upgrade is done, you can activate the license for the new version as described on page 11-15
- Such line items can be distinguished through a special icon:

# 2. Managing Entitlements

## 2.5 Where do I find a list of all activated licenses?

- Go to “License Support”
- Go to “List Licenses”

Please note: Evaluation licenses are not visible in the portal!

The screenshot shows the ETAS License & Download Portal. The navigation bar includes 'Home', 'Activation & Entitlements', 'License Support', and 'Downloads'. The main content area is titled 'Welcome to the ETAS License & Download Portal'. It features three main sections: 'Current License Entitlements', 'Available Downloads', and 'Recently Released Files'. The 'Current License Entitlements' section contains a table with columns for 'Activation ID', 'Product', and 'Last modified'. The 'Available Downloads' section includes a 'Public Downloads' link and a note: 'To activate the software, you need a license file.' The 'Recently Released Files' section shows 'No records found for this account.' Two red circles highlight the 'List Licenses' link in the 'License Support' dropdown menu and the 'List Licenses' link in the 'License Support' section. A red line connects these two circles, indicating the navigation path.

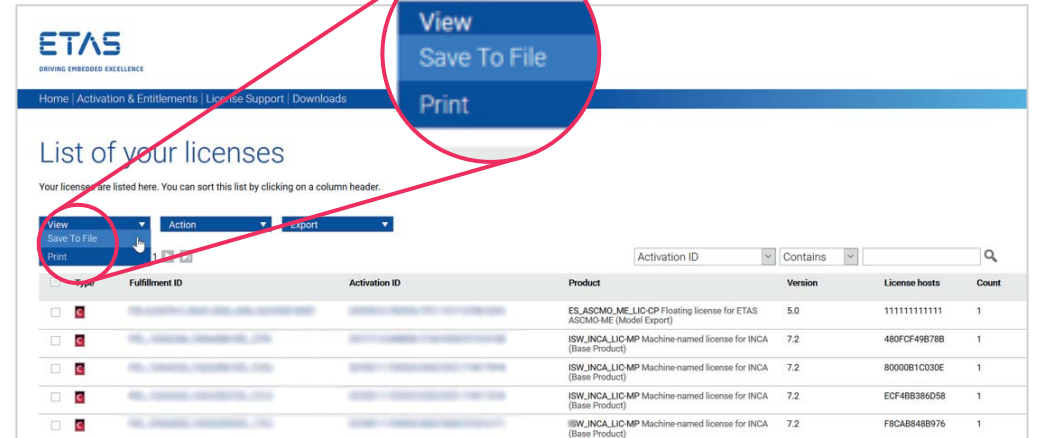

# 2. Managing Entitlements

## 2.6 How can I retrieve a license key for an existing and activated license?

- Go to **“License Support”** >> **“List Licenses”**
- Choose the License for which you want to retrieve the license key
- Click on **“View”** and **“Save to File”**

Please note: License keys for inactive fulfillments cannot be saved!

# 2. Managing Entitlements

## 2.7 Rehost

A rehost enables you to specify a new license server Host ID or MAC address for a license. This may be needed when you replace a computer.

A rehosted license has a new Fulfillment ID, but retains the original Activation ID.

If only some of the original fulfillments are rehosted, a second (new) fulfillment will be generated for the copies that are not rehosted with the original Activation ID.

E.g. this happens, if you split Concurrent licenses between two servers.

# 2. Managing Entitlements

## 2.7 Rehost

- Go to **“License Support”**
- Select a Fulfillment ID and click **“Action”** >> **“Rehost”**

### License Summary

Please review the licenses below and click Complete to return to Manage

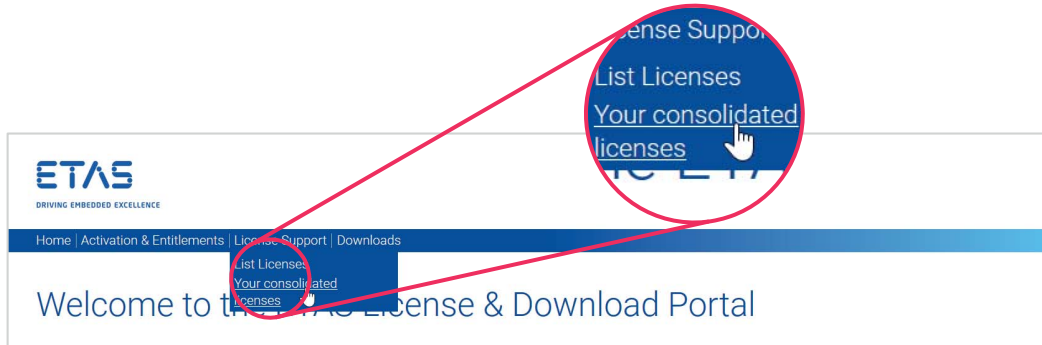

License details:

Sold to:  
Guangzhou Auto-education Co., Ltd

Activation ID	Product	Version	License hosts	Count	User ID
	ISW_INCA_LIC_MP Machine-named license for INCA (Base Product)	7.2	123456789123	1	

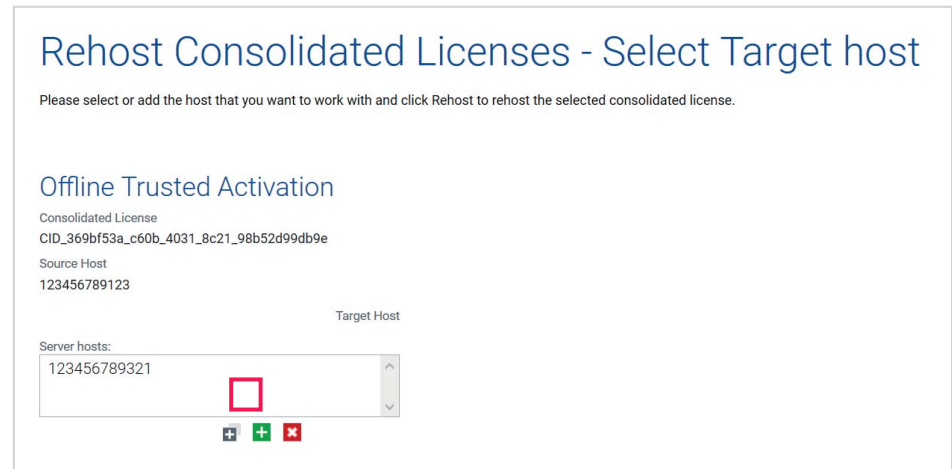

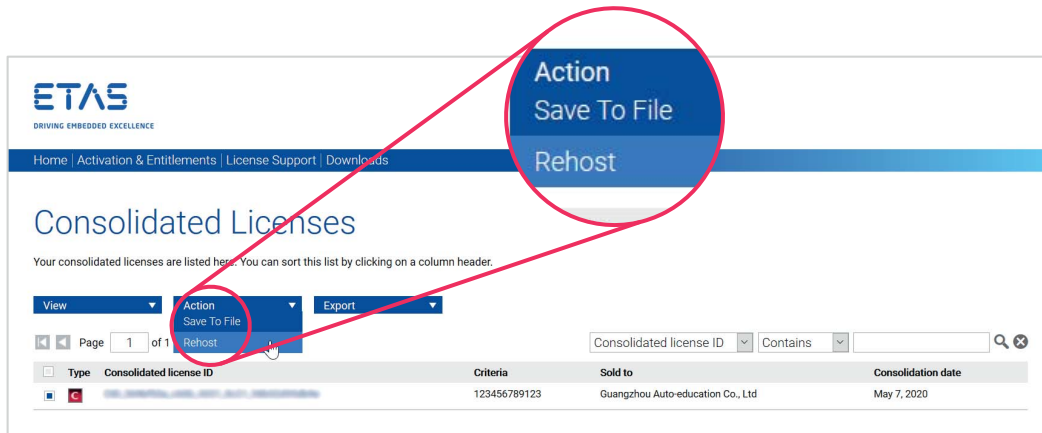

# 2. Managing Entitlements

## 2.8 Rehost Consolidated Licenses

You can rehost consolidated licenses:

- Go to **“Consolidated Licenses”**
- Select a consolidation and click **“Rehost”**
- Enter the Host Address by clicking on green **“+”** and confirm

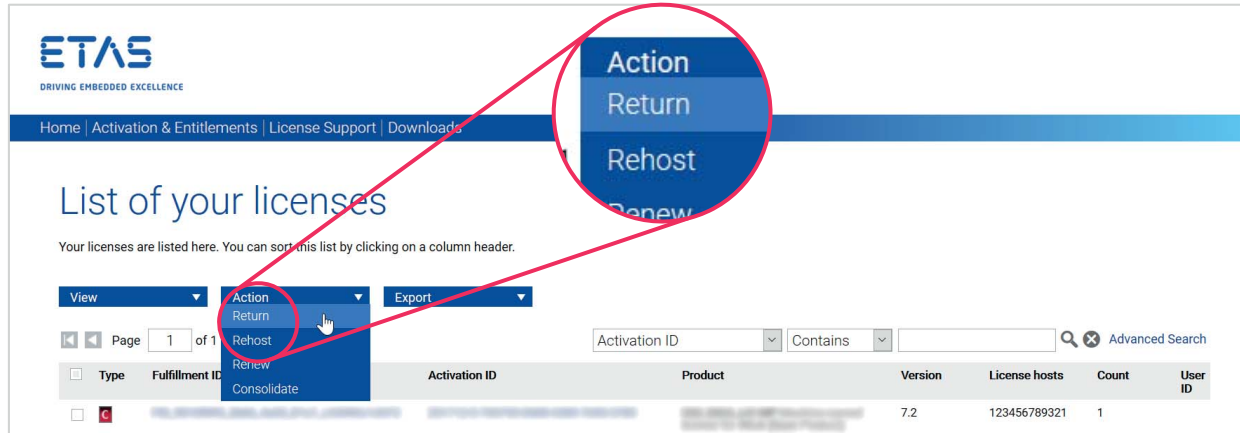

# 2. Managing Entitlements

## 2.9 Return

A return refers to the process of moving license rights from a user to another user. By returning a license the number of available copies in the ETAS License Portal increases by the amount of returned licenses, so a new license key can be generated.

- Go to **“Manage Licenses”**
- Select a Fulfillment ID and click **“Return”**
- Confirm with **“Return”**

Please note:

- For the returned fulfillment no license file can be saved any more.
- Return is only allowed for User named licenses, once a year.
- The difference to a rehost is that the license is not activated again

# 2. Managing Entitlements

## 2.10 Consolidation

You can consolidate existing licenses into one license file:

- Go to **“Manage Licenses”**
- Select Licenses
- Click **“Consolidate”**

Please note: A Consolidation is only possible for licenses where the “Server Host ID”s are similar.

# 3. Managing Downloads

# 3. Managing Downloads

## 3.1 View Available Downloads

- The view “**Home**” will give you an overview of available downloads and recently added downloadfiles of your ordered product(s).
- Please be aware of by selecting one of the recently released files, it will takes up to 10 seconds until to get files data.

The screenshot shows the ETAS License & Download Portal. The header includes the ETAS logo and navigation links: Home | Activation & Entitlements | License Support | Downloads. The main content area is titled "Welcome to the ETAS License & Download Portal" and features a search bar for "Public Downloads for Software".

There are three main sections:

- Current License Entitlements**: A table with columns for Activation ID, Product, and Last modified. It lists several licenses such as ES\_ASCET-DEVELOPER\_LIC-UP, ISW\_INCA\_LIC-MP, ISW\_INCA\_LIC-CP, ES\_ASCET-DEVELOPER\_LIC-UP, and ES\_ASCET-DEVELOPER\_LIC-UP with their respective last modified dates.
- Available Downloads**: A section with a search icon and a list of products including INCA, INTECRIO, and ISOLAR. Below this is a "Public Downloads" section.
- Recently Released Files**: A table with columns for Description and Date. It lists files like INCA\_7.2\_SP13\_Multilingual, ERRORCELL, INCA\_V7.2\_SP16\_english, INCA\_V7.2-Whats-new\_english, INCA\_V7.2\_ServicePack\_Release\_Notes\_english, and INCA\_7.2\_Release\_Notes\_english with their release dates.

Additional text includes "Do you need help activating the software after installation?" and "To activate the software, you need a license file."

# 3. Managing Downloads

## 3.1 View Available Downloads

- For accessing to available downloads area, you can either select a specific product family from the Home -> Available Downloads or can select the same view over the Menu item Downloads -> Available Downloads.

- By selecting one product family, you get the lists of available download packages regarding to your product.

The screenshot shows the ETAS Download Portal. A red circle highlights the 'Downloads' menu, which includes 'Available Downloads', 'Recent Releases', 'Recently Released Files', and 'Search'. Another red circle highlights the 'Available Downloads' link in the top navigation bar. Below the navigation, the page title is 'Welcome to the ETAS Download Portal'. The main content area is divided into two sections: 'Current License Entitlements' and 'Recently Released Files'. The 'Current License Entitlements' section contains a table with columns for Activation ID, Product, and Last modified. The 'Recently Released Files' section contains a table with columns for Description and Date.

Activation ID	Product	Last modified
[REDACTED]	PERU_Test_3	May 11, 2020
[REDACTED]	ISOLAR_8_ELUC-ME	May 11, 2020
[REDACTED]	INCA FINE Ubungen	May 11, 2020
[REDACTED]	ES_ASSETDEVELOPERLICUP	Apr 22, 2020
[REDACTED]	ISW_INCA_LIC-MP	Apr 20, 2020

Description	Date
INCA_7_2_SP13_Multilingual	Mar 31, 2020
ERRORCELL	Mar 31, 2020

The screenshot shows the ETAS Downloads page. The page title is 'Downloads'. Below the title, there is a message: 'Your product lines, available for download, are listed here. Please click on the desired product line to have access to the download.' Below this message, there is a 'Change Account' dropdown menu. The main content area lists the product lines: INCA, INTECRIO, ISOLAR, and Public Downloads.

# 3. Managing Downloads

## 3.1 View Available Downloads

- Each product belongs to a product family and all download packages are assigned to the corresponding product family.

- By selecting one product family, you get the lists of available download packages regarding to your product.

## Download Packages

The Download Packages page lists new and archived versions of downloadable components along with helpful details of the download.

### INCA

New Versions | Previous Versions

Version	Description	Date Available	Log Details
V7.3 SP15	ISW_INCAKnown Issue Report_V7.3 SP15	Apr 06, 2020	Download Log
V7.2 SP16	ISW_INCASoftware_V7.2 SP16	Mar 17, 2020	Download Log

# 3. Managing Downloads

## 3.1 View Available Downloads

Now you can see in the tab “**New Versions**” the current available download packages for your product. Older download packages will be available in the “**Previous Versions**” only in the case if you bought older versions of the product on the past.

- For accessing to download files, please select a download package

The screenshot shows the ETAS website's 'Download Packages' page for the 'INCA' product. The page has a blue header with the ETAS logo and navigation links: Home | Activation & Entitlements | License Support | Downloads. Below the header, the title 'Download Packages' is displayed, followed by a sub-header 'INCA'. There are two tabs: 'New Versions' (selected) and 'Previous Versions'. A table lists the available download packages:

Version	Description
V7.3 SP15	ISW_INCAKnown Issue Report_V7.3 SP15
V7.2 SP 16	ISW_INCA[Software_V7.2 SP 16

# 3. Managing Downloads

## 3.1 View Available Downloads

Each download package contains a number of files. By selecting a download package, you get the files provided as list again, but please be aware, it will takes up to 10 seconds until to get files displayed. If do that for the first time, you need to accept the EULA once.

- For more description of a file, please click on “+” to get more data

The screenshot shows the ETAS software download interface. The main heading is 'Available Downloads' for 'ISW\_INCA|Software\_V7.2 SP 16 V7.2 SP 16'. Below this, there are tabs for 'Files', 'Download Log', and 'Notification Log'. A table lists the available files with columns for 'File Description', 'File Size', 'File Added', and 'File Name'. The first file, 'INCA\_V7.2\_Whats-new\_english.pdf', is expanded, showing a '+' icon to its left and a '-' icon to its right. A red circle highlights the '+' icon, and another red circle highlights the expanded file's name and download icon. A third red circle highlights the '-' icon of the expanded file. Below the table, there is a section for 'INCA V7.2 Service Pack 16' with a 'MDS Signature' and a 'SHA256 Checksum'.

File Description	File Size	File Added	File Name
+ INCA_V7.2_Whats-new_english	9,12MB	Jan 24, 2020	- INCA_V7.2_Whats-new_english.pdf
+ INCA_V7.2_Release_Notes_english	2,08MB	Jan 24, 2020	- INCA_V7.2_Release_Notes_english.pdf
+ INCA_V7.2_ServicePack_Release_Notes_english	1,57MB	Jan 24, 2020	- INCA_V7.2_ServicePack_Release_Notes_english.pdf
- INCA_V7.2_SP16_english	2,56GB	Jan 24, 2020	- INCA_V7.2_SP16.zip

# 3. Managing Downloads

## 3.2 View Recent Releases

- The Recent Release contains data about, which download packages of your product are provided on the last 30, 60, 90 or 120 days.

- As results you get the download packages listed, which you can select. Please be aware, it will takes up to 10 seconds until to get files displayed, if you selected a download package. If do that for the first time, you need to accept the EULA once.

The screenshot shows the ETAS Download Portal. The navigation menu includes 'Downloads', 'Available Downloads', 'Recent Releases', and 'Recently Released Files'. A red circle highlights the 'Recent Releases' menu item. Below the navigation, there are two tables: 'Current License Entitlements' and 'Recently Released Files'.

# 4. Basic Concepts

# 4. Basic Concepts

## 4.1 Entitlements

An entitlement represents what you, the customer, have the legal right to use; it is the right to obtain one or more licenses for a product. Think of an entitlement as an account, or a store of rights to use software, from which you can redeem licenses as needed. For example, let's assume you order 10 concurrent licenses of ETAS' Software's product, ASCET Rapid

Prototyping Version 6.0.0 You will be issued an entitlement for those 10 copies, specifying the duration of validity. Each entitlement is identified by a unique Entitlement ID, and contains one or more entitlement line items. See **“Activations”** for details.

## 4.2 Activations

Each Entitlement contains a number of Entitlement line items that can be activated, i.e. a license can be generated for them. The Activation maps to a single product, its license terms, the number of copies entitled, and other details needed to generate a license. Activations are uniquely identified by Activation IDs.

If an Entitlement line item has been activated, the license key for it has been created.

The ETAS License Portal will show activated licenses as fulfillments. See **“Fulfillments”** for details.

# 4. Basic Concepts

## 4.3 Fulfillments

Each time a license key is activated, a fulfillment is generated. The fulfillment contains information on the product, the hosts

and the date when it was created. It is identified by a unique Fulfillment ID.

## 4.4 Hosts

In order to activate licenses, information on the hosts/licensed devices has to be entered:

- Machine named license: a MAC address has to be provided
- User named license: a server host or server triad as well as a user name have to be provided
- Concurrent license: a server host or server triad has to be provided

If this data changes (e.g. due to a change in hardware or users), the license needs to be “rehosted”. This procedure is described in [Chapter 2.7](#) of this manual.

# 4. Basic Concepts

## 4.5 License Key

The license determines how, when, and where you can use a licensed product such as ASCET Rapid Prototyping. To ensure the correct usage of the license product, these information

are stored in digitally-signed, human-readable text files. This is called certificate-based licensing.

## 4.6 License Models

### Machine named (PC Based)

- License needs to be managed by each user on his/her own
- License can be carried with the PC
- Exchanging the PC will require you to generate a new license first

### Concurrent (Server Based)

- Easy and transparent license management by one server responsible
- License can be borrowed and carried with the PC if enabled
- License is available on each PC in the network
- Several users share a fix amount of licenses; availability of a sufficient amount of free licenses is not granted

# 4. Basic Concepts

## 4.6 License Models

### User named (Server Based)

- Easy and transparent license management by one server responsible
- License can be borrowed and carried with the PC
- License is available on each PC in the network
- 100% availability for one specific user

## 4.7 Consolidating Licenses

Consolidating licenses will make it easier for you to manage your license files. Possible use cases are:

- A user has licenses both for the main product and the add-on
- A lot of users have User named licenses which refer to the same server
- Consolidated licenses can be rehosted in one step instead of several separate steps
- You can only consolidate licenses if they have the same MAC address
